

## 12. LIST OF PUBLICATIONS OF THE LABORATORY UNTIL DECEMBER 1996

compiled by

Á. ERDÓDI

*Cell Biological and Evolutionary Micropaleontological Laboratory of the Department of Botany of the J. A. University, H-6701, P. O. Box 993, Szeged, Hungary*

- ALVAREZ RAMIS, C., KEDVES, M., FERNÁNDEZ MARRÓN, T. y CLEMENTE BELMONTE, P. (1996): Estudio palinológico de un nivel rico en palinomorfos situado en el Barranco de Patones (Madrid). – XI Simposio de Palinología A.P.L.E., programa y resúmenes, Alcalá de Henares, 56.
- HERNGREEN, G. F. W., KEDVES, M., ROVNINA, L. V. and SMIRNOVA, S. B. (1996): Chapter 29C. Cretaceous palynofloral provinces: a review; in: JANSONIUS, J. and MCGREGOR, D. C. (ed.), *Palynology: principles and applications*. – American Association of Stratigraphic Palynologists Foundation, Vol. 3, 1157–1188.
- KÁROSSY, Á. (1996): List of publication of the Laboratory until December 1995. – *Plant Cell Biology and Development (Szeged)* 7, 98.
- KEDVES, M. (1996a): Transmission electron microscopy of the fossil spores. – Szeged, ISBN 963 481 984 2.
- KEDVES, M. (1996b): Plant microfossils from the Upper Cretaceous and Lower Tertiary layers of Northern Spain II. – *Plant Cell Biology and Development (Szeged)* 7, 13–36.
- KEDVES, M. (1996c): Aspects and prospects of the TEM investigations of the fossil sporoderm. – Ninth Internat. Palynol. Congr., Program and Abstracts, Houston, Texas, U.S.A., 77.
- KEDVES, M. (1996d): Trends and new aspects of experimental Palynology. – Ninth Internat. Palynol. Congr., Program and Abstracts, Houston, Texas, U.S.A., 77.
- KEDVES, M. et GÁSPÁR, I. (1995): Altérations secondaires de certains sporomorphes sous l'influence des rayons X. Secondary deteriorations of some sporomorphs under X-ray influence. – 2<sup>e</sup> Symposium de Palynologie africaine, Tervuren (Belgique), Publ. Occas. CIFEG, 1995/31, Orléans, 255–259.
- KEDVES, M. and GÁSPÁR, I. (1996): New data concerning the solubility of the pollen grains of the genus *Quercus* L. – *Plant Cell Biology and Development (Szeged)* 7, 56–61.
- KEDVES, M. and KEDVES, L. (1996): Computer modelling of the quasi-crystalloid biopolymer structure II. – *Plant Cell Biology and Development (Szeged)* 7, 82–88.
- KEDVES, M., PÁRDUTZ, Á. and VARGA, A. (1996): Ultrastructural Study on the Pollen – Microbial Interactions. – *Taiwania* 41, 43–52.
- KEDVES, M., SOLÉ DE PORTA, N. and MARTIN-ALGARRA, A. (1996): Spores and pollen grains from Eocene layers of Málaga Spain. – *Plant Cell Biology and Development (Szeged)* 7, 37–55.
- KEDVES, M., TÓTH, A., KÁROSSY, Á. and VARGA, A. (1996): Molecular structures of the partially dissolved foot layer and endexine of *Pinus griffithii* MCCLELL pollen grains. – *Plant Cell Biology and Development (Szeged)* 7, 89–97.
- KEDVES, M., TÓTH, A., MÉSZÁROS, K., BORBOLA, A., BENN, O. and GUBÁS, T. (1996): High temperature effect on the pollen grains of three varieties of cultivated maize. – *Plant Cell Biology and Development (Szeged)* 7, 62–74.
- KEDVES, M. and UNGVÁRI, E. (1996a): X-ray effect to the LM morphology of some *gymnosperm* and *angiosperm* pollen grains. – *Plant Cell Biology and Development (Szeged)* 7, 75–81.
- KEDVES, M. et UNGVÁRI, E. (1996b): Les types principaux des spores du Crétacé supérieur de Portugal. – XI Simposio de Palinología A.P.L.E., programa y resúmenes, Alcalá de Henares, 55.
- TÓTH, A. (1996): To the 5<sup>th</sup> Anniversary of the official recognition of the Laboratory. – *Plant Cell Biology and Development (Szeged)* 7, 10–12.
- UNGVÁRI, E. (1996): Chronicle. – *Plant Cell Biology and Development (Szeged)* 7, 99–102.
