

13. LIST OF PUBLICATIONS OF THE LABORATORY UNTIL DECEMBER 2000

Compiled by

D. TOMBÁ CZ

Cell Biological and Evolutionary Micropalontological Laboratory of the University of Szeged, H-6701, P.O. Box 993, Szeged, Hungary

- ALVAREZ RAMIS, C. (2000): Comentarios acerca de las investigaciones conjuntas entre el laboratorio de paleobotánica del Departamento de Paleontología (UCM) / UEI de Paleontología del Instituto de Geología Económica (CSIC) de Madrid y el Cell Biological and Evolutionary Micropaleontological Laboratory de Szeged. - *Plant Cell Biology and Development (Szeged)* 12, 7.
- ALVAREZ RAMIS, C., LAAMARTI, N. and VEGAS, J. (2000): A preliminary palynological study of epiclastic deposits from "Caldera de Taburiente". La Palma Island, Canary Archipelago, Spain. Estudio palinológico preliminar de depósitos epiclasticos procedentes de la Caldera de Taburiente. Isla de la Palma, Canarias. - *Plant Cell Biology and Development (Szeged)* 11, 50-57.
- DEJAX, J. et SALARD-CHEBOLDAEFF, M. (2000): In memoriam EUGÈNE BOLTENHAGEN (1906-1999). - *Plant Cell Biology and Development (Szeged)* 11, 207-208.
- KEDVES, M. (2000a): Organic microfossils from Hungarian Cretaceous sediments. - *Plant Cell Biology and Development (Szeged)* 11, 19-33.
- KEDVES, M. (2000b): Upper Cretaceous pollen grains from Egypt IV. - *Plant Cell Biology and Development (Szeged)* 11, 34-49.
- KEDVES, M. (2000c): Palynological investigations on Hungarian Neogene lignites. - *Plant Cell Biology and Development (Szeged)* 11, 58-78.
- KEDVES, M., ALVAREZ RAMIS, C., FERNÁNDEZ MARRÓN, M.-T., CLEMENTE BELMONTE, P. and GOMEZ PORTER, P. (1999): Sporomorphs isolated from pre-Quaternary sediments of "Barranco de Patones" (Spain). - *Ann. Univ. Sci. Budapestinensis, Sect. Geol.* 32, 57-71.
- KEDVES, M. and BORBOLA, A. (2000): Transmission electron microscopy of partially dissolved exines of *Pseudotsuga menziesii* (MIRB.) FRANCO. - *Plant Cell Biology and Development (Szeged)* 11, 193-198.
- KEDVES, M., BORBOLA, A., TRIPATHI, S.K.M. and MADHAV KUMAR (2000a): Thermal effect on some extant palm pollen. - *Plant Cell Biology and Development (Szeged)* 11, 166-183.
- KEDVES, M., BORBOLA, A., TRIPATHI, S.K.M. and MADHAV KUMAR (2000b): Transmission electron microscopic studies on partially degraded pollen grains of *Phoenix sylvestris* LINN. - *Plant Cell Biology and Development (Szeged)* 12, 93-103.
- KEDVES, M., BORSODI, A., DOBÓ, K., KOVÁCS, E. and SZÉCSÉNYI, A. (1999): L'effect de l'hydratation sur les grains de pollen des *Cycadales*. Hydratation effect on *Cycadales* pollen grains. - *Geo - Eco - Trop Actes du 4 ème Symposium de Palynologie Africaine Proceedings of the 4 th Symposium on African Palynology Sousse (Tunisie)*, 25-30/04/1999, 227-234.
- KEDVES, M. and HORVÁTH ERIKA (2000): LM and TEM investigations of partially dissolved and degraded pollen grains of *Elaeagnus angustifolia* L. - *Plant Cell Biology and Development (Szeged)* 11, 150-154.
- KEDVES, M., HORVÁTH ESZTER, TERBE, Zs. and TOMBÁ CZ, D. (2000): High temperature effect of the pollen grains of *Buxus sempervirens* L. - *Plant Cell Biology and Development (Szeged)* 11, 161-165.
- KEDVES, M. and KÁROSSY, Á. (2000): LM investigations on partially dissolved sporomorphs IV. - *Plant Cell Biology and Development (Szeged)* 11, 141-149.
- KEDVES, M. and MADARÁSZ, M. (2000a): Experimental investigations on the pollen grains of *Punica granatum* L. - *Plant Cell Biology and Development (Szeged)* 11, 121-127.

- KEDVES, M. and MADARÁSZ, M. (2000b): Transmission electron microscopy on partially degraded Paleocene pollen grains. - Abstracts 10th International Palynological Congress, June 24-30, 2000, Nanjing, China (eds.: WANG WEIMING, OUYANG SHU, SUN XIANGJUN and YU GE) 79-80.
- KEDVES, M. and MADARÁSZ, M. (2000c): Transmission electron microscopy of the partially degraded pollen grains from the Thanetian layers of Menat (France) I. - *Plant Cell Biology and Development (Szeged) 12*, 40-62.
- KEDVES, M., MADARÁSZ, M., SZÉCSÉNYI, A., HORVÁTH, A., TERBE, Zs., HORVÁTH ESZTER, BORSODI, A., DOBÓ, K., KOVÁCS, E. and KANCSÁR, T. (2000): Duhoux effect on inaperturate *gymnosperm* and *angiosperm* pollen grains. - *Plant Cell Biology and Development (Szeged) 11*, 128-140.
- KEDVES, M. and PÁRDUTZ, Á. (1999): Experimental investigations of the pollen grains of *Welwitschia mirabilis* HOOK. In: K. HAINE ed., and L. SCOTT, A. CADMAN and R. VERHOEVEN guest-eds.: Palaeoecology of Africa and the surrounding Islands. Proceedings of the Third Conference on African Palynology, Johannesburg, 14-19 September 1997, 249-252, Balkema/Rotterdam/Brookfield.
- KEDVES, M. and PÁRDUTZ, Á. (2000a): Transmission electron microscopy of Hungarian Tertiary lignites II. - *Plant Cell Biology and Development (Szeged) 11*, 99-106.
- KEDVES, M. and PÁRDUTZ, Á. (2000b): Chloroplast thylakoid membranes in the intine of ragweed pollen grains as a possible constituent in the biosynthesis of its extreme allergenic antigens. - *Plant Cell Biology and Development (Szeged) 12*, 87-92.
- KEDVES, M., PÁRDUTZ, Á. and MADARÁSZ, M. (2000): New data on the molecular symmetry and organization of the quasi-crystalloid skeleton of the sporoderm. - *Plant Cell Biology and Development (Szeged) 11*, 184-192.
- KEDVES, M., PÁRDUTZ, Á., MADARÁSZ, M., TOMBÁ CZ, D., HORVÁTH, A., SZÉCSÉNYI, A., SASHALMI, J., TERBE, Zs., HORVÁTH ESZTER and KOVÁCS, E. (2000): LM, SEM and TEM investigations on partially degraded *Botryococcus braunii* KÜTZ. colonies from Hungarian Upper Tertiary oil shale I. - *Plant Cell Biology and Development (Szeged) 12*, 63-86.
- KEDVES, M., SASHALMI, J. and TOMBÁ CZ, D. (2000a): LM, SEM and TEM Investigations on the biopolymer structure of *Botryococcus braunii* isolated from Hungarian oil shale. - Abstracts 10th International Palynological Congress June 24-30, 2000, Nanjing, China (eds.: WANG WEIMING, OUYANG SHU, SUN XIANGJUN and YU GE), 80.
- KEDVES, M., SASHALMI, J. and TOMBÁ CZ, D. (2000b): Upper Cretaceous pollen grains from Egypt V. - *Plant Cell Biology and Development (Szeged) 12*, 18-29.
- KEDVES, M., SZÓNOKY, M. and GULYÁS, S. (2000): Combined investigations on Hungarian Neogene lignites. - *Plant Cell Biology and Development (Szeged) 11*, 79-98.
- KEDVES, M., SZÓNOKY, M., MADARÁSZ, M. and KOVÁCS, G. (2000): LM and TEM investigations on the Upper Cretaceous Ajkaite, of Hungary I. - *Plant Cell Biology and Development 12*, 8-17.
- KEDVES, M., TERBE, Zs., HORVÁTH ESZTER and SASHALMI, J. (2000): High temperature effect on monoletete fern spores. - *Plant Cell Biology and Development (Szeged) 11*, 155-160.
- KVAVADZE, E., KEDVES, M., MADARÁSZ, M. and HORVÁTH, A. (2000): Redeposited sporomorphs from Holocene lake sediments of Caucasus. - *Plant Cell Biology and Development (Szeged) 11*, 107-120.
- LAGOS, J.A., KEDVES, M. y HORVÁTH ERIKA (2000): Investigaciones experimentales de los granos de polen de *Tecoma stans* (L.) H.B.K. - *Plant Cell Biology and Development (Szeged) 11*, 199-205.
- MADARÁSZ, M. and HORVÁTH ANDREA (2000): List of publications of the Laboratory until December 1999. - *Plant Cell Biology and Development (Szeged) 11*, 206.
- PRAMOD KUMAR (2000): Palynodating of Denwa Formation, Satpura Basin, India. - *Plant Cell Biology and Development (Szeged) 11*, 9-18.
- TERBE, Zs. (2000): Chronicle. - *Plant Cell Biology and Development (Szeged) 11*, 209-213.
- YOUSSEF, S.G.M., EL-SAADAWI, W.E., KEDVES, M. and MOSTAFA, R.M. (2000): Wood anatomy of a silicified trunk from the Kharga Oasis, Egypt. - *Plant Cell Biology and Development (Szeged) 12*, 30-39.
