

**Dr. Hatice Onuray Egilmez**

**ULUDAG UNIVERSITY  
FACULTY OF EDUCATION  
MUSIC EDUCATION DEPARTMENT**

Situated at the crossroads of the 3 continents, Turkey forms a bridge between Asia, Europe and Africa and has an area of 814.578 km. Covered by the sea from three sides, Turkey is characterized by seven geographical regions each of which has a different landscape. (Erasmus Information Booklet) These regions are; The Aegean Region, The Black Sea Coast, The Mediterranean Coast, Central Anatolia, Eastern Anatolia, South-eastern Anatolia and The Marmara Region where our city Bursa is located. (<http://turkeytravelplanner.com/Maps/RegionsNCities.html>) These seven geographical regions are divided into 81 provinces.

Turkey's population in 2007 is approximately 75 million. The population growth rate is about 1.5 %. Approximately 70 % of the population is below the age of 35. The most populated and prominent cities of the country are: Istanbul, which is also known as the commercial and cultural centre; Ankara, is the capital and is located at the heart of the country; Izmir, an attractive city at the Aegean coast; and 'green' Bursa, a historical, industrial, tourist attraction and commercial city.

With an area of 10.891 km<sup>2</sup> and a population of 3.2 million, Bursa, the 4th biggest city in Turkey, is located on the north-west skirts of 2543 meters- high mountain called Mount Uludag. Located at the south-east of Marmara Sea the mountain is a popular skiing resort. There are two big lakes within the borders of the city, Lake Iznik and Lake Uluabat, the former being the biggest in the Marmara Region. There are many large and fertile plains within the borders of Bursa where the vegetal production is intensive.

After becoming the capital of the Ottoman Empire, Bursa had developed rapidly and all roads from the Middle East countries to Anatolia crossed through Bursa. Thus, Bursa became an important sericulture center on the Silk Road during the 14th century and preserved its importance until the mid-20th century. As a result of the silkroad, in 15th century Bursa had become one of the main centers of trade, industry and culture. (<http://www.itudergi.itu.edu.tr/asp/oku.asp?gorev=ozet&dergiID=1&ciltID=11&sayiID=25&makaleID=257>) Today the dominant industrial sectors in Bursa are primarily the automotive industry, automotive parts

manufacturing and the textile industry, followed by food, machine manufacturing (Bosch), leather, ready-to-wear clothing and metal goods. There is also a minibus factory Karsan-Peugeot and two car factories Tofas-Fiat and Oyak-Renault functioning in the province. Nearly 800 textile factories, which account for 75% of the synthetic fibre production of Turkey, employ about 60,000 personnel.

Thanks to its enchanting historical wealth, Bursa, from a tourism perspective, is one of the most important tourist attractions of Turkey. Bursa and İznik are decorated with unique artefacts of both the Christian and also the Ottoman period. There are numerous museums that exhibit the rooted historical past of Bursa.

Bursa is at the same time a center for thermal springs. The Thermal springs found widely across the city are used to treat a variety of illnesses and are popular all year round.

There are a variety of ways to travel to Bursa, the city with a rooted history and incomparable nature. One may choose Istanbul Ataturk Airport or Sabiha Gökçen Airport again in Istanbul. One may prefer to fly to Bursa Yenisehir Airport, which is 1 hour away from the city centre, but as there are no frequent flights there, people usually prefer other ways. If you are travelling from Istanbul Airport, you can take the Metro from the Airport to Esenler terminal then from there you can take a bus from the various bus firms or speedy boat shuttles from Yenikapı or Pendik to Yalova or to Mudanya which is a district of Bursa and from there you can reach Bursa and Uludağ University.

## **ULUDAG UNIVERSITY**

Uludağ University, the only university in Bursa, was established in 1975 and is located in Görükle, 20 km from the city centre and covers an area of 16,000,000 square meters.

In 2002, from among 137 European universities, Uludağ University was selected as one of the eight universities privileged with the task of implementing the Bologna Declaration in Europe.

In 2003, Uludag University carried out the transition to the European Credit Transfer System and applied to the European Commission for the ECTS and European Diploma Supplement Label.

Uludag University has 11 Faculties. These are Faculty of Education, Faculty of Medicine, Faculty of Arts and Sciences, Faculty of Economics and Administration, Faculty of Veterinary, Faculty of Engineering and Architecture, Faculty of Agriculture, Faculty of Theology, Faculties of Law,

Fine Arts and Dentistry (were confirmed to be founded within the University by the Decision of the Council of the Ministers dated 04.07.1995 but have not been activated yet). Besides the 11 faculties it has 1 conservatory, 12 Vocational Schools in various parts of the city, 1 School of Foreign Language, 3 Institutes, 11 Research Centers, and 6 departments that are under the Rectorate.

As of August 2005, Uludağ University has a total of 1,626 administrative staff and 2,121 teaching staff. Of these, 348 are professors, 155 are associate professors, 257 are assistant professors, 291 are instructors, 140 are lecturers, 830 are research assistants and 100 are specialists.

Uludağ University has a student population of more than 40,000, of which 21,915 are undergraduates, 16,835 are associate degrees, 1,007 are Master students and 915 are PhD students.

The means of education in most of the bachelor programmes is in English. So the English language is a necessary pre-requisite. To meet this requirement Compulsory English Preparation Classes have been opened. This allows for students to study in a foreign language and to graduate with the knowledge of at least one foreign language. Currently 20 programmes require Foreign Language Preparation Classes. The ultimate plan is to gradually spread this requirement to all programmes and departments.

University students can make use of the halls of residence in Bursa and Gorukle provided by the "Higher Education Credit and Residence Association" which can accommodate around 4000 students. Alongside this the University's own residences located on the Gorukle and Ali Osman Sonmez sites can accommodate 1900 students. All coming Erasmus students and staff are guaranteed a suitable accommodation within the Gorukle Campus. The monthly cost of a room for an Erasmus student is about 100 €. Those students who wish to stay in private hostels, guest houses or rented homes may find accommodation at suitable prices in the city centre, suburbs, and around the main site at Gorukle. There are low priced dining halls, cafeterias and canteens within the campus that both students and academic and administrative personnel can take advantage of.

Students are also provided with a good health service. The students without social security can benefit from the services of the Medico-Social Centre. Those who cannot be treated by the Medico-Social Centre are sent to the University Hospital, which is one of the most developed hospitals in Turkey.

Uludağ University has a Central Library with a closed area of 10,000 meters square which has the capacity to simultaneously seat and cater for

830 people. Access to all resources is possible through the Central Library web-site.

There are 64 student societies established by the students concerning their interests and abilities. There are 23 Culture and Art Societies, 32 Science Societies and 9 Sport Societies. Student societies participate in cultural and artistic activities like panels, interviews, conferences, tours, cinema, theatres, concerts, press and information and sports activities. There is a Cultural Centre with a capacity of 1000 people and an amphitheatre to be used for cultural activities at Gorukle Campus. The Spring Festival which is traditionally held at the university every year since 1993 is also organised by the Student Culture and Societies. Along side the cultural activities, students can take part in a variety of sports activities.

In order to prepare the graduates to the European Union and make all graduate degree certificates recognizable internationally, graduates are given a Diploma supplement which is also accepted by the European Union.

## **FACULTY OF EDUCATION**

The Faculty of Education, founded in 1982, is one of the 11 faculties of the university. It has 8 departments which give 11 undergraduate programmes. Most of the departments also have Masters Programmes and some of them have PhD programmes. The 8 Departments and 11 programmes are as follows:

- Computer Teaching and Technologies Department
- Physical Education and Sports Department
- Turkish Language Education Department
- Foreign Language Education Department
  - English Language Education
  - German Language Education
  - French Language Education
- Educational Sciences Department
  - Psychological Guidance and Counseling
- Primary Education Department
  - Preschool Education
  - Elementary Education
  - Science Education
  - Mathematics Education
  - Social Sciences Education

- Fine Arts Education Department
  - Music Education
  - Arts and Craft Education
- Special Education Department

## DEPARTMENT OF MUSIC EDUCATION

The Department of Music Education was established in 1981. It was the 4th Music Department to be established after the existing 3. At the moment it is one of the 21 Music Education Departments established in the various Education Faculties across the 21 provinces. Our Department with its various activities besides Anatolian Fine Arts Lise (senior high school), Municipality Conservatoire, State Conservatoire, and State Regional Symphony Orchestra contributes to the music life of Bursa.

After the establishment year of 1981, Bursa Music Education Department developed very rapidly in the following 26 years. Its number of students and academic personnel increased. Now it has nearly 300 students and more than 30 academic staff who are both Turkish and foreign. They are as follows: 1 professor, 1 associate professor, 6 assistant professors, 21 lecturers of which 3 are with a PhD and 8 of them are foreign, 1 research assistant and 1 specialist on the production and repairment of musical instruments.

The Music Education Department provides a four-year "Music Teaching Degree Programme" and trains teachers for primary and junior high school. In addition to this it has an ongoing Masters Programme since 1995 under the Social Sciences Institute.

In the Music Education Department alongside the teachings of Musical Theory, Musical Instruments and Vocal Education, Major Performance Education of piano, violin, viola, violoncello, contrabass, accordion, guitar, flute, clarinet, obua and singing is also given. To provide the students with the opportunity of practicing regularly the Music Department houses 31 pianos. Alongside the training of the above mentioned musical instruments Turkish Folk Music instruments are taught under the Turkish Folk Music lesson. In addition to orchestra/chamber music, viece training, choir and conducting, musical theory, ear training, history of music, Methodology In Teaching Music, traditional Turkish Music, computer, current/popular music lessons there are also electives in the faculty or the university programmes at large that the students select from. The new teaching programme is valid as of the 1st / Fall Semester of 2006-2007 academic year starting from 1'st year. The following programme shows the course codes, credits and their distribution according to the semester.

Among its extracurricular activities our Department takes part in local, regional, national and international seminars, panels, conferences, demonstrations, student concerts, teaching staff concerts, concerts and other activities with other national and foreign universities to help contribute to musical education and to our musical culture, regionally and nationally by providing a live music environment. In this respect on 9 May 2001, a Young Symphony Orchestra was established between the students of the two universities following a scientific-artistic cooperation agreement with the Bulgarian / Plovdiv Music and Dance Academy; two important concerts were realized, one in Bursa on 31 May 2002, and the other in Plovdiv on 19 May 2003. Again in 2004 and 2005 the academic personnel and students of both universities realized artistic and scientific activities in both Bursa and Plovdiv. The Polyphonic and the Turkish Folk and Classical Music Choir of our Department have acquired a numerous number of awards from a variety of national competitions.

In order to study in a Music Education Branch, students after completing high school or an equivalent school (at the age of 17), should acquire the required score in the "Student Selection and Placement Central Examination" and should also pass the musical ability examination.

Once a year in the summer months the Department conducts Ability Exams which comprise of two stages where Stage I is "Elimination"; and Stage II is "Selection". The Elimination Exam is a written exam which aims at evaluating the level of readiness of the candidates to Music Theory and Ear Training. The Selection Exam tests musical ear, voice and playing musical instrument abilities of the candidates and it takes place in front of three separate committees each consisting of at least three teaching staff. In this exam the weight of each section is musical ear 40%, voice 30% and playing an instrument 30%. The majority of the candidates that take the music ability exam are the graduates of Anatolian Fine Arts Lises which are a total of about 42 in Turkey. These Lises also select, with an ability test students (14 year-olds) who have completed an 8 year primary and junior high education. The Department continues its music education by selecting 40 students every year with the ability exam. Since June 2007 in the new building of the Görükle campus where the physical environment is far more developed, both the administrative and academic personnel are working intensively to educate skilled music teachers.

Graduates who meet the required conditions laid down by the Ministry of Education deserve to work as music teachers in both government and private schools.

The Music Education Department has signed the Erasmus Agreement in October 2006 with Szeged University "GyulaYuhasz" Education Faculty, Department of Music. 2 students in the Spring Semester of 2006-2007 academic year, and 2 students both in the Fall and Spring Semesters of 2007-2008 academic year were sent to Hungary through the Erasmus Student Exchange Project. Our Erasmus students introduced the Hungarian culture to our department. They are highly grateful for the close interest and hospitality that you have shown them throughout their stay in Hungary. Our university is impatiently waiting to welcome your students to Bursa and to our department through new agreements in order to learn about new and different cultures, to introduce the rooted Turkish culture at home and to show Turkish hospitality

The courses which will take place in the 2007-2008 academic year for the arriving.
